A well-known judge and charismatic presenter solve neighborly disputes and deep-rooted legal conflicts in only 12 hours. The presenter uses their mediation skills and charm to coax out the finer details of the case whilst the judge visits the location where the dispute is centered to investigate the disagreement and hear both parties' grievances. After this the judge presides over the case in a neutral location to hear witnesses on either side of the dispute and deliver the legally binding verdict. The fights are real; the verdict is binding. With Verdict on Demand, getting called to the stand is the end of the line for conflict and the start of a new beginning!
